

DILIJAN · TAVUSH · ARMENIA

# Who picks it up?

Ո՞վ է հավաքելու

# Rubbish costs Armenia money

# 40%

of Armenians name rubbish and landfill  
mismanagement a top-3 environmental problem

- Tourists turn away
- The city's image suffers
- The country's economy pays

# Armenia wants to clean up

- No one knows where the rubbish is
- Volunteers never find each other
- A cleaned Saturday leaves no proof
- Big damage needs money, not bags

THE ANSWER

# Havak

Հավաք · to gather

Report it. Clean it. Fund it.

Scan to open Havak

THE SOLUTION

# Havak — one app, three moves

## Report

Put the spot on the map

## Cooperate

Form a crew, clean it together

## Fund

Pay for what bags can't fix

# Four steps

1

Spot it

2

Gather a crew

3

Clean it

4

Get certified

WHY PEOPLE COME BACK

# Points, and being seen

## EARN

|                  |     |
|------------------|-----|
| Report a spot    | +5  |
| Join a crew      | +5  |
| Finish a cleanup | +20 |

## SPEND

|                                    |               |
|------------------------------------|---------------|
| Vote on what gets funded           | 10 pts        |
| Earn the right to moderate reports | UNLOCKED      |
| Gear and discounts                 | FROM PARTNERS |

Three cleanups earn a Verified Eco-Activist certificate — proof for a CV.

WHO DOES THE WORK

# Hands

## Students

Volunteering for the  
portfolio

## Eco-activists

Already organising — now  
with a map

## Municipality

Owens the fixes only the  
state can make

WHO FUNDS IT

# Money

## Diaspora

Armenians here and abroad

## State

Government and  
municipality

## Business

Tourism and food producers

# From gloves to a treatment plant

|                                   |                 |
|-----------------------------------|-----------------|
| Gloves, bags, first-aid kit       | 60 000 AMD      |
| Truck for one river clear-out     | 120 000 AMD     |
| Five recycling bins               | 350 000 AMD     |
| Fenced waste point                | 1 200 000 AMD   |
| Sewer line, 40 houses             | 45 000 000 AMD  |
| Treatment plant, biological stage | 900 000 000 AMD |

HOW WE GROW IT

# Reach

## Influencers

Activists with an audience

## Summits

Ecological conferences

## COP17

Armenia hosts the world

THE ASK

# Dilijan first. Then every town in Armenia.
